KEY INVESTMENT HIGHLIGHTS

- **1QFY21 earnings above expectations**
- **Started FY21 on a strong note**
- **New property sales of RM1.19b in 1QFY21**
- **Earnings estimates revised upwards**
- **Maintain BUY with a revised TP of RM1.33**

1QFY21 earnings above expectations. S P Setia 1QFY21 core net income of RM106.4m came in above expectations, making up 45% and 39% of our and consensus full year estimates respectively. The positive deviation could be attributed to the higher than expected progress billing, stronger than expected contribution from project in Singapore and lower than expected finance cost. Note that we have excluded mainly forex loss in our core net income calculations.

Started FY21 on a strong note. Sequentially, 1QFY21 core net income was higher at RM106.4m (+30.8%qoq) despite marginally lower topline as earnings were helped by better margin of products sold and lower administrative expenses. On yearly basis, 1QFY21 core net income jumped to RM106.4m (+284%yoy). The surge in earnings were mainly due to low base in 1QFY20 which was adversely impacted by MCO1.0. Meanwhile, earnings growth in 1QFY21 was driven by higher progress billing of its township in central region of Malaysia and higher contribution from Daintree Residence project in Singapore. Besides, earnings growth was supported by lower finance costs (-31.7%yoy). On the other hand, unbilled sales is flattish at RM10.1b in 1QFY21, providing earnings visibility of >3 years.

New property sales of RM1.19b in 1QFY21. S P Setia registered commendable new sales of RM1.19b in 1QFY21, making up 31% of management new sales target of RM3.8b. Sales momentum was driven by marketing efforts before Home Ownership Campaign (HOC) ends in May 2021. Local projects contributed to 78% of total new sales whilst international projects contributed 22% to new sales. Looking forward, management is maintaining its new sales target of RM3.8b for FY21.

Maintain BUY with a revised TP of RM1.33. We revise our FY21/22F earnings forecast by +41.7%/+25.7% to factor in the higher progress billing and higher contribution from project in Singapore. Our **TP** is revised to **RM1.33** (from RM1.29) as we widen our RNAV discount marginally to 70% from 71%. We maintain our **BUY** call on S P Setia due to better earnings outlook in FY21. Valuation of S P Setia remains attractive, trading at steep discount of 71% to its latest NTA per share of RM3.45.
