Land acquisition in Melbourne, Australia

***Maintain* BUY**

***Unchanged* Target Price: RM3.70**

INVESTMENT HIGHLIGHTS

- **Acquiring land in Prahran, Melbourne Australia for AUD10m.**
- **Fourth piece of land in Melbourne.**
- **We think the valuation is fair.**
- **Expect earnings impact from FY20 onwards.**
- **Maintain BUY with Target Price of RM3.70.**

Acquiring land in Prahran, Melbourne Australia for AUD10m. SP Setia (SPSETIA) has acquired a piece of 850 sq m land in Prahran, Melbourne Australia for AUD10m. The Company intends to develop the land into a high-end residential project with a GDV of AUD38m. We gather that the project will consists of eight-storey building with 47 apartments and an office, and retail outlets on the ground floor. Prahran is located 4.5km southeast of the Melbourne central business district (CBD).

Fourth piece of land in Melbourne. Previously, SPSETIA has acquired three pieces of land in Melbourne. In 2009, SPETIA purchased a 0.2ha Fulton Lane site for AUD30m and developed it into luxury apartments with a GDV of A$470m. This is followed by acquisition of 0.9ha land at Parque (under construction with a GDV of A$247m). The third land bought is the 0.51 acre Carnegie land with a price of AUD6.68m transacted in Nov-2015.

We think the valuation is fair. Valuation works out to be AUD1,093 per sq ft and we think this is fair. Although the valuation is higher than SPSETIA recent purchase of Carnegie land transacted at AUD301 per sq ft, we believe that the premium is justified due to the better location of Prahran. Note that Prahran and Carnegie are 4.5km and 14.2 km away from Melbourne CBD respectively.

Expect earnings impact from FY20 onwards. The Company do not provide the timing of launch. However, we think that it will take between 1.0 to 2.0 years before the launch. While this should contribute to FY17 sales, the earnings impact should kick in much later due to completion method recognition practiced in Australia.

Maintain BUY with TP of RM3.70. Earnings estimates for FY16 and FY17 are unchanged. Our Target Price of RM3.70 is based on 10% discount to RNAV. We like SPSETIA due to its high dividend yield of 5.7% (peers' average: 3.7%) and strong balance sheet with net gearing at 0.18x.
