Corporate Update

Disposal of Jalan Ampang Land

Disposal of Jalan Ampang land for RM258m. IOI Properties Group's subsidiary IOI Properties Bhd has entered into a sale and purchase agreement with Paramount Corporation Bhd for the disposal of 14,974sqm (3.7 acres) of freehold commercial land located off Jalan Ampang in KL for RM257.89m. The land disposal is expected to complete within three months.

Active land monetization to reduce net gearing. IOI Properties Group has been actively disposing its land lately. IOI Properties Group had in January 2026 inked agreement to dispose 136 acres of land of IOI Industrial Park @ Banting, Selangor to Bridge Data Centres (BDC) for RM740.7m. Subsequently, IOI Properties Group had in early of March 2026 inked agreement to dispose 31.82 acres of land in Johor to subsidiaries of AME Elite Consortium Berhad for a total disposal consideration of RM101.2m. We see the active land monetization to lower net gearing of IOI Properties Group which was at elevated level of 0.9x as of 2QFY26. Net gearing is expected to reduce to 0.85x post the land disposals.

Non-active landbank. The Jalan Ampang land is deemed non active landbank of IOI Properties considering that IOI Properties is not actively developing high-end high-rise project in KL city centre. The land disposal is expected to contribute positively to earnings of IOI Properties in FY26 as the disposal is expected to be completed within three months. We estimate the land disposal to increase net profit for FY26 by ~17% based on gross profit assumption of 60%. We maintain our earnings forecast pending completion of the land disposal.

Maintain NEUTRAL with a revised TP of RM3.35. We revise our **TP** for IOI Properties Group to **RM3.35** as we narrow RNAV discount to 35% from 38% due to anticipation of improving net gearing. We continue to see that listing of REIT by IOI Properties by CY26 which will unlock value of its investment properties to remain the near-term catalyst. Nevertheless, we think valuation of IOI Properties is stretched, trading at price to book of 0.76x which is above its +2 standard deviation of 9-year means price-to-book ratio of 0.66x. Hence, we maintain our **NEUTRAL** call on IOI Properties.
