Another Dull Quarter

Maintain **SELL**

Unchanged Target Price **RM0.32**

Maintain SELL. We maintain our **SELL** recommendation on Sunview with an unchanged target price of **RM0.32**. While we are positive on the renewable energy subsector, especially the solar EPCC players that are expected to benefit from the various schemes and policies and the longer-term National Energy Transition Roadmap (NETR), we view that Sunview continues to lag in translating job wins into meaningful and consistent profitability.

Below expectations. Sunview Group Berhad's quarterly results disappointed once again, with core earnings of RM1.1m in 2QFY26. While this was an improvement from the previous quarter at RM0.2m, results were below expectations. For the cumulative six months of FY26, Sunview recorded RM1.3m in core earnings, which was below expectations, coming in at 14.6% of ours and 11.2% of full year estimates.

EPCC and services. Revenue generated from EPCC declined -16.6%qoq to RM62.3m while gross profit plunged (-83.7%qoq) to RM1.1m. This was mainly due to lower contributions from C&I projects, as several of them were nearing completion. For power generation, despite a +3.9%qoq growth in revenue to RM1.0m, the segment incurred a loss of -RM0.6m.

Order book depleting. Sunview's unbilled order book has depleted to RM20.6m as at 2QFY26 (Mar-26) but a recent win last month may have given it a boost. Recall that the group, in a JV with Cypark Resources Bhd where it holds a 40% stake, was awarded a RM1.96b EPCC contract for a 595MW solar PV plant with BESS at the Kenyir Lake in Terengganu by TNB Power Generation Sdn Bhd. We assume Sunview's share of the contract to be RM784.8m. The project is expected to be completed in slightly over two years, by 29th Sept 2028. Upon completion, the Kenyir Lake floating solar farm is set to be the largest in Southeast Asia.

Earnings estimates and TP. We maintain our FY26E/FY27F earnings estimates as we expect the massive Kenyir Lake floating solar project to contribute to its bottom line in the coming quarters. We also maintain our target price of RM0.32 as we peg Sunview's FY27F EPS of 1.6 sen to a PER of 20x, at a discount to its larger peers.
