Dear Unit Holders:

FUND CATEGORY AND TYPE

Fund Category	Equity Fund
Fund Type	Income and Growth Fund

ASSET ALLOCATION AS AT 15 OCTOBER 2022

Shariah-Compliant Equities	75.9%
Islamic Money Market Instruments and Others	24.1%

PERFORMANCE OF THE FUND

MIDF Amanah Growth Fund ("MAGF")	15/10/2022	15/04/2022	%
Net Asset Value ("NAV") (RM)	6,031,067	6,773,870	-10.97
NAV per Unit (RM)	0.4430	0.4870	-9.03
FBM Hijrah Shariah ("FBMHS")	10,648.21	12,755.41	-16.52

**Note: Effective 1 June 2018, FBMHS has been identified as the new benchmark for MAGF subsequent to its conversion from a conventional fund to a Shariah-compliant fund.*

For the Semi-Annual Financial Year ended 15 October 2022, the NAV per unit of MAGF decreased by 9.03% as compared to the FBMHS which decreased by 16.52%.

The key objective of MAGF is to achieve long-term capital growth through investments in large, well-established companies. For the period under review, the fund has outperformed its benchmark by +7.49% despite the challenging market environment, although it did not meet its objective in achieving capital growth.

The FBMHS has been identified as the benchmark for MAGF as it is the closest comparable index.

EQUITY MARKET REVIEW

For the period under review, market sentiment was generally bearish driven largely by macro headwinds, such as tension in eastern Europe, the Covid-19 lockdown in China, high inflation, and aggressive tightening by central banks to tame the high inflationary pressures, which has prompted the markets to start in a bearish fashion in April 2022. US economic data also showed signs of weakening, while persistent inflationary pressure has led the Federal Reserve (“Fed”) into a more aggressive measures of interest rate hikes. Inflation increased 1.2% in March, a sharp pick-up from February 2022, resulting in the annual inflation rate picking up to 8.5% from 7.9%, its highest level since December 1981.

In May 2022, global equity markets were largely mixed, as worries over rising inflation, a potentially faster pace of central bank tightening, and the ongoing war in Ukraine continued to dominate market sentiments. The concerns continued in June 2022, with markets trading lower before rebounded in July 2022 as investors began to focus on the prospect of interest rate cuts next year, given signs of a slowing global economy after aggressive monetary tightening from central banks worldwide.

Growth stocks were the primary beneficiaries, with solid gains in July 2022 after poor performance year-to-date (YTD). Central banks’ commitment to bringing inflation under control, despite the inherent risks to the growth outlook, shook equity markets in August 2022, echoed by Federal Reserve Chair Jerome Powell in his Jackson Hole speech that the central bank won’t back off in its fight against rapid inflation. All in all, the uncertainty level about the global economic outlook remained elevated, reflected by the poor performance of developed countries’ stock markets that were largely in the red.

Global equity markets continued the downtrend in September due to US Federal Reserve’s 0.75% rate hike and higher than expected inflation data. The weakness in the US markets was exacerbated by the European Central Bank’s decision to raise interest rates by 75 bps in September 2022, following a rise of 50 bps in July 2022, and the UK’s currency crisis after announcing a plan to cut taxes for top earners.

Our local Index, the FBM KLCI, fell by 7.8% to 1,394 points in September 2022, breaking the psychological support of 1,400 points, amid foreign selling and concern about aggressive interest rate hikes by central banks globally. The decline in September 2022 proved to be significant as it offset the gains in July 2022 and August 2022, with the FBM KLCI closed the third quarter in the red with a 3.43% decline. In addition, other benchmarks such as FBM Mid 70, FBM Emas, FBM Hijrah Shariah, and FBM Emas Shariah also fell in September 2022.

For the period under review, the FBM Hijrah Shariah closed at 10,648.21 points, outperforming the FBM Emas Shariah Index by 2.4% (YTD) but underperformed FBM KLCI and FBM Mid 70 by 5.23% (YTD) and 0.8% (YTD), respectively.

KEY MARKET RISKS

- Heightened geopolitical risks such as the looming Ukraine-Russia conflict may derail global recovery and negatively affect investors' sentiment.
- Faster than expected interest rate tightening by the US Fed and other central banks worldwide as well as uncertainties surrounding the pace of re-setting the monetary stance may increase market volatility.
- Spike in Covid-19 cases around major world economies may hamper global economic growth, such as the ongoing lockdown in China.
- Uncertainties over the domestic political scene as the 15th general election draws near.

INVESTMENT OUTLOOK AND STRATEGY

The global economic outlook has further deteriorated, and growth across Asia as well as the Pacific region is defied to endure a slower pace amid the continuing impact of Russia and Ukraine conflicts, rising inflation concerns, interest rate hikes and increasing potential recession throughout the region.

Nevertheless, price pressures in developing Asia including Malaysia remain modest compared to advanced economies, supported by positive consumer sentiment whilst the economy continues to attain stability with an average GDP growth of 7% in 1H2022. In addition, the World Bank had revised up its 2022 economic growth forecast for Malaysia from 5.5% to 6.4% while the Standard & Poor had revised Malaysia's GDP to grow to 7% in 2022 versus earlier expectation of 6.1%.

A further paring of Covid restrictions in 2Q and 3Q, along with high prices for commodity exports, should support domestic economic momentum trajectory into year-end. The increase in inflation has been relatively benign, that is well containing the damage to household spending power.

The FBM KLCI which is currently trades at -2.6 standard deviation (STD) below 5-year mean (a sharp correction from its peak of +1.5 STD in December 2020 when the index was at 1,685 points), provides a good opportunity for value investors to enter Malaysian equities, while the solid dividend yield of 4.73% further improve the total returns for investors. From a multiple forward valuation of 12.4x (E) PER for 2023, the index is trading well below its 5-year mean of 18x PER.

Nonetheless, having not spared from the global slowdown, Malaysia faces numerous economic threats, posting growth risks to the downside for 2022 and 2023. Our main trading partner, China, is tackling simultaneous challenges on top of maintaining a Covid-Zero strategy. Soaring inflation prompts a more aggressive monetary tightening in the US and other major central banks, thus fueling recession fears. High prices for essentials are also reducing spending power across trading partners, damping non-commodity export receipts. The approach of elections, due in 2023, may sideline investors.

The upbeat momentum of economic reopening may fade as pent-up demand becomes satiated and as government spending on fuel subsidies reaches its limit. Higher inflation will dent household spending power. A prolong inflationary pressures with higher borrowing costs will increase the cost of doing businesses for corporates whilst steeper slowdowns in the US, China and Europe will dent exports.

Longer term, fiscal consolidation to keep debt at a sustainable level will hinder the government's ability to support plans for the country's transformation to a high-income economy. Capital spending by the private sector will also be more constrained if borrowing costs and political uncertainty remain elevated. These are amongst the key immediate concerns that the government is religiously taking measures to address, so as not to further derail the overall economic growth.

The outlook for FBM KLCI is expected to be bumpy in the fourth quarter of 2022 and investors are expected to tread cautiously and adopting tactical strategy in light of the highly volatile market conditions. Over the course of the third quarter, many analysts have revised down their FBMKLCI targets from an average of 1,600 points to a range of between 1,520 to 1,550 points.

As yearend draws closer, strategy going forward will be anchored on positioning the portfolio going into year 2023:-

- Focus on **recovery/re-opening and structural growth themes**. For recovery themes, we focus on value and cyclical growth sectors such as Consumer Discretionary, Telecommunication, Energy, Industrials and Materials. For structural growth themes, we like sectors such as Technology and Renewable Energy which valuations have become attractive following the recent selloff. For structural growth themes, we like sectors such as Technology and Renewable Energy.
- Remain **buyers on market weakness**, taking opportunities to buy selectively on dips, astute stock picking, nibbling value, and cyclical names on weakness, with core holdings in growth, defensive, and high-yielding stocks.
- **A balance portfolio** with a combination of value and growth stocks remains relevant in navigating the highly volatile market conditions. Our focus will anchor on building value stocks with quality tilt (strong cash flow and solid earnings growth) and appealing dividends to minimize downside risks or value contraction whilst capturing alpha on the potential upside.
- **Active asset allocation strategy with a more defensive approach** is pivotal as market prices are likely to correct materially lower in a scenario of economic slowdown, with the resulting downward earnings revisions on the back of the generally bearish sentiment. Hence, we reiterate the case for a prudent and defensive asset allocation to risky assets going into 4Q2022, waiting for more visibility on corporate earnings growth.
- We will continue to **remain committed towards our Sustainable Responsible Investment ("SRI")** as well as Environmental, Social, and Governance ("ESG") themes across our investment approach, reinforced by our product launches as well as investment solutions/value propositions.

Result

	RM
Net loss after tax	<u>603,723</u>

In the opinion of the Manager, the result of the operations of the Fund during the six months financial period has not been substantially affected by any item, transaction or event of a material and unusual nature.

INVESTMENT OBJECTIVE

The objective of the Fund is to achieve long term capital growth through investments in large, well established companies.

MANAGEMENT FEES

During the financial period, the Manager is entitled to a management fee of RM48,468 (15.10.2021: RM52,556). The Manager's fee is computed on a daily basis at 1.5% (15.10.2021: 1.5%) per annum of the Net Asset Value ("NAV") of the Fund before deducting the Manager's and Trustee's fee for that particular day.

DISTRIBUTION

Unit holders are given the options whether to reinvest or to have payment by cheque for the income due to them (if any). For reinvestment of income distribution, it will be based on the NAV per unit (ex-distribution) at the close of the date and the income distribution is declared with sales charge imposed. Besides, the Manager reserves the right to reinvest any distributed income, which is less than RM250.00. As for income distribution paid by cheque, cheques issued to unit holders will become void after 6 months from the distribution payment date. In the event that the cheque is unrepresented for payment upon its expiry date, it would be automatically reinvested into units at NAV per unit of the Fund valued on the expiry date of the cheque.

The Manager did not propose any distribution for the financial period ended 15 October 2022 (15.10.2021: Nil).

UNIT SPLIT

No unit split was made during the six months financial period ended 15 October 2022 (15.10.2021: Nil).

CHANGES IN VALUE OF FUND

The changes in value of fund are reflected in the statement of changes in equity.

POLICY ON STOCKBROKING REBATES AND SOFT COMMISSION

It is our policy to pay all rebates from stockbrokers to the respective Funds. However, soft commissions from stockbrokers (if any) will be retained by the Manager only if the goods and services are of demonstrable benefit to the unit holders.

During the six months financial period, the Manager received soft commissions from stockbrokers in the form of investment tools that are used to support investment decision, research materials and data quotation services, e.g. Bloomberg, incidental to the investment management of the Fund.

**NOTES TO THE UNAUDITED CONDENSED
INTERIM FINANCIAL STATEMENTS
FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 15 OCTOBER 2022**

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

MIDF Amanah Growth Fund (hereinafter referred to as “the Fund”) was constituted pursuant to the executed deed (“the Deed”) dated 2 December 1966 and the various Supplemental Deeds between Asia Unit Trusts Berhad (“AUTB”), the Trustee - Amanah Raya Berhad and the Registered Holders of the Fund. The Deed and its respective Supplemental Deeds were consolidated on 18 December 1998. The various Master Supplemental Deeds were executed on 1 November 2001 and 31 October 2002. The Fund will continue its operations until terminated by the Trustee as provided under Part 13.2 of the Master Supplemental Deed dated 1 November 2001. On 6 November 2008, the Fourth Master Supplemental Deed was executed between the AUTB, Amanah Raya Berhad and AmanahRaya Trustees Berhad, whereby Amanah Raya Berhad will transfer and assign its rights, duties and obligations under the Master Deed with respect to the Fund and its assets to AmanahRaya Trustees Berhad. The effective date of the transfer was 28 November 2008. The various Master Supplemental Deeds were executed between 6 November 2008 and 12 April 2018. The Tenth Master Supplemental Deed with respect to the Shariah matters was executed on 12 April 2018.

AUTB, MIDF Amanah Asset Management Berhad and AmanahRaya Trustees Berhad have entered into a novation agreement dated 18 November 2009 to transfer and assign the management of the unit trusts to MIDF Amanah Asset Management Berhad all the rights, duties and obligations on and from the date a Master Supplemental Deed relating to the Fund has been registered with Securities Commission (“SC”) or such other date as may be agreed by the Parties hereto. The effective date of the transfer was 1 January 2010 and subsequent from the date, the Fund changed its name to MIDF Amanah Growth Fund.

The principal activity of the Fund is to invest in Authorised Investments as defined in the Deed, which includes stocks and shares of companies quoted on the Bursa Malaysia Berhad (“Bursa Malaysia”) and short-term deposits. The registered office of the Fund is located at Level 21, Menara MIDF, 82 Jalan Raja Chulan, 50200 Kuala Lumpur.

The Manager, MIDF Amanah Asset Management Berhad, a company incorporated in Malaysia, is a wholly-owned subsidiary of Malaysian Industrial Development Finance Berhad, whereas, Permodalan Nasional Berhad (“PNB”) and Yayasan Pelaburan Bumiputra (“YPB”) are the penultimate and ultimate holding companies. The holding companies are incorporated in Malaysia.

The principal activities of the Manager are the provision of the fund management and investment advisory services.

The unaudited financial statements were authorised for issue by the Board of Directors of the Manager in accordance with a resolution of the directors on 5 December 2022.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The unaudited condensed interim financial statements of the Fund have been prepared in accordance with MFRS 134, Interim Financial Reporting issued by Malaysian Accounting Standards Board (“MASB”) and IAS 34 *Interim Financial Reporting* issued by the International Financial Reporting Standards Board (“IASB”).

The unaudited condensed interim financial statements should be read in conjunction with the audited financial statements for the year ended 15 April 2022. These explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Fund since the year ended 15 April 2022.

The unaudited condensed interim financial statements of the Fund have been prepared under the historical cost convention, unless otherwise stated in the accounting policies. The unaudited condensed interim financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional currency.

The significant accounting policies and methods of computation applied by the Fund are consistent with those adopted in the most recent audited financial statement for the year ended 15 April 2022.

(b) New standards and amendments issued

The Fund has adopted the Standards, Amendments to Standards and Interpretations issued by the Malaysian Accounting Standards Board (“MASB”) which have become effective during the financial period. The adoption of the new pronouncements did not result in any material impact to the financial statements.

As at the date of authorisation of these unaudited condensed interim financial statements, the following Standards, Amendments to Standards and Interpretations have been issued but are not yet effective and have not been adopted by the Fund.

Description	Effective for annual periods beginning on or after
Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16: <i>Interest Rate Benchmark Reform - Phase 2</i>	1 January 2021
Amendment to MFRS 16: <i>Covid-19 - Related Rent Concessions beyond 30 June 2021</i>	1 April 2021
Amendments to MFRS 3: <i>Reference to the Conceptual Framework</i>	1 January 2022

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(b) New standards and amendments issued (cont'd.)

Description	Effective for annual periods beginning on or after
Amendments to MFRS 116: <i>Proceeds before Intended Use</i>	1 January 2022
Amendments to MFRS 137: <i>Onerous Contracts – Cost of Fulfilling a Contract</i>	1 January 2022
Annual Improvements to MFRS Standards 2018-2020 Cycle	1 January 2022
MFRS 17 <i>Insurance Contracts</i>	1 January 2023
Amendments to MFRS 101: <i>Classification of Liabilities as Current or Non-current</i>	1 January 2023
Amendments to MFRS 101: <i>Disclosure of Accounting Policies</i>	1 January 2023
Amendments to MFRS 108: <i>Definition of Accounting Estimates</i>	1 January 2023
Amendments to MFRS 112: <i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction</i>	1 January 2023
Amendments to MFRS 10 and MFRS 128: <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	Deferred

The Fund plans to adopt the above pronouncements when they become effective in the respective financial years. These pronouncements are expected to have no significant impact to the financial statements of the Fund upon their initial application.

(c) Financial assets

Financial assets are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss (“FVTPL”), directly attributable transaction costs.

The Fund determines the classification of its financial assets at initial recognition.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(c) Financial assets (cont'd.)

(i) Financial assets at FVTPL

A financial asset is measured at fair value through profit or loss if:

- Its contractual terms do not give rise to cash flows on specified dates that are Solely Payments of Principal and Profit ("SPPP") on the principal amount outstanding; or-It is not held within a business model whose objective is either to collect contractual cash flows or to both collect contractual cash flows and sell; or
- At initial recognition, it is irrevocably designated as measured at FVTPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring asset or liabilities or recognising the gains and losses on them on different bases.

Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in 'Net gain or loss on financial assets at fair value through profit or loss'. Profit earned and dividend revenue elements of such instruments are recorded separately in 'Profit income' and 'Dividend income', respectively. Exchange differences on financial assets at FVTPL are not recognised separately in profit or loss but are included in net gains or net losses on changes in fair value of financial assets at FVTPL.

(ii) Financial assets at amortised cost

Financial assets at amortised cost are those financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are SPPP on the principal amount outstanding. The Fund includes short-term receivables and Islamic deposits with Islamic financial institutions in this classification.

Subsequent to initial recognition, financing and receivables are measured at amortised cost using the effective profit rate method. Gains and losses are recognised in profit or loss when the financing and receivables are derecognised or impaired, and through the amortisation process.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(d) Impairment of financial assets

The Fund holds financial assets with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply an approach similar to the simplified approach for Expected Credit Losses (“ECL”) under MFRS 9 to all its financial assets. Therefore, the Fund does not track changes in credit risk, but instead, recognises a loss allowance based on lifetime ECL at each reporting date.

The Fund’s approach to ECLs reflects a probability-weighted outcome, the time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

(e) Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period’s unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified as part of FVTPL are calculated using weighted average method. They represent the difference between an instrument’s initial carrying amount and disposal proceeds.

(f) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument. Financial liabilities are classified as other financial liabilities.

The Fund’s financial liabilities which include other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective profit rate method.

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(g) Unit holders' capital

The unit holders' contributions to the Fund meet the definition of puttable instruments classified as Shariah equity instruments under the revised MFRS 132 Financial Instruments : Presentation.

Distribution equalisation represents the average distributable amount included in the creation and cancellation prices of units. This amount is either refunded to unit holders by way of distribution and/or adjusted accordingly when units are cancelled.

(h) Dividend distribution

Dividend distributions are at the discretion of the Fund. A dividend distribution to the Fund's unit holders is accounted for as a deduction from realised reserves except where dividend is sourced out of distribution equalisation which is accounted for as a deduction from unit holders' capital. A proposed dividend is recognised as a liability in the period in which it is approved.

(i) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of bank balances and Islamic deposits and placements with banks and other Islamic financial institutions with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

(j) Income

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

Dividend income is recognised when the Fund's right to receive payment is established.

Profit income from Islamic deposits with Islamic financial institutions is recognised using the effective profit rate method.

(k) Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

No deferred tax is recognised as there are no material temporary differences.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

(l) Segment reporting

For management purposes, the Fund is managed by two main portfolios, namely (1) Quoted Shariah-compliant securities and (2) Islamic deposits with financial institutions. Each segment engages in separate business activities and the operating results are regularly reviewed by the Investment Manager and the Investment Committee. The Fund Manager assumes the role of chief operating decision maker, for performance assessment purposes and to make decisions about resources allocated to each investment segment.

(m) Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

3. MANAGER'S FEE

The Manager's fee is computed on a daily basis at 1.5% (15.10.2022: 1.5%) per annum of the NAV of the Fund before deducting the Manager's and Trustee's fees for that particular day.

4. TRUSTEE'S FEE

The Trustee's fee is computed on a daily basis at 0.08% (15.10.2022: 0.08%) per annum of the NAV of the Fund before deducting the Manager's and Trustee's fees for that particular day.

5. INCOME TAX EXPENSE

	16.04.2022 to 15.10.2022 RM	16.04.2021 to 15.10.2021 RM
Charge for the financial period	<u>-</u>	<u>-</u>

Income tax is calculated at the Malaysia statutory tax rate of 24% of the estimated assessable income for the financial period.

The tax charge for the financial period is in relation to the taxable income earned by the Fund after deducting tax allowable expenses. In accordance with Schedule 6 of the Income Tax Act, 1967, profit income earned from licensed banks and financial institutions is exempted from tax.

A reconciliation of income tax expense applicable to net (loss)/income before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Fund is as follows:

	16.04.2022 to 15.10.2022 RM	16.04.2021 to 15.10.2021 RM
Net (loss)/income before tax	<u>(603,723)</u>	<u>165,654</u>

Expense not deductible for tax purposes	<u>168,832</u>	<u>25,998</u>
Tax expense for the financial period	<u>-</u>	<u>-</u>

6. ZAKAT FOR THE FUND

The Manager does not pay zakat on behalf of its unit holders. Thus, unit holders are advised to pay zakat on their own.

16. FINANCIAL INSTRUMENTS (CONT'D.)

(b) Financial instruments that are carried at fair value

The Fund's financial assets at FVTPL are carried at fair value. The fair values of these financial assets were determined using prices in active markets for identical assets.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
15.10.2022				
Quoted Shariah-compliant securities	<u>4,575,132</u>	<u>-</u>	<u>-</u>	<u>4,575,132</u>
15.04.2022				
Quoted Shariah-compliant securities	<u>5,483,100</u>	<u>-</u>	<u>-</u>	<u>5,483,100</u>

Quoted Shariah-compliant securities

Fair value is determined directly by reference to their published market bid prices at the reporting date.

For instruments quoted on Bursa Malaysia, the market bid prices are determined by reference to the closing market price as published by Bloomberg.

(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximations of fair value

The carrying amounts of the other financial assets and financial liabilities approximate the fair value due to their relatively short term maturity.

17. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES

(a) Introduction

The Fund maintains Islamic investment portfolios in a variety of listed and unlisted financial instruments as dictated by its Trust Deed and Islamic investment management strategy.

The Fund is exposed to a variety of risks including market risk (which includes profit rate risk, price risk and currency risk), credit risk, and liquidity risk. Whilst these are the most important types of financial risks inherent in each type of financial instruments, the Manager and the Trustee would like to highlight that this list does not purport to constitute an exhaustive list of all the risks inherent in an Islamic investment in the Fund.

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring of risks. Financial risk management is also carried out through sound internal control systems and adherence to the investment restrictions as stipulated in the Trust Deed, the Securities Commission's Guidelines on Unit Trust Funds and the Capital Markets and Services Act 2007.

(b) Risk management structure

The Fund's Manager is responsible for identifying and controlling risks. The Board of Directors of the Manager is ultimately responsible for the overall risk management approach within the Fund.

(c) Risk measurement and reporting system

Monitoring and controlling risks is primarily set up to be performed based on limits established by the Manager (and Investment Manager, if applicable) and Trustee. These limits reflect the Islamic investment strategy and market environment of the Fund as well as the level of the risk that Fund is willing to accept. In addition, the Fund monitors and measures the overall risk bearing capacity in relation to the aggregate risk exposure across all risks type and activities.

(d) Risk mitigation

The Fund has Islamic investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy. The Manager also has a Compliance Department to ensure that the Fund complies with the various regulations and guidelines as stipulated in its Trust Deed, the Securities Commission's Guidelines on Unit Trust Funds and the Capital Markets and Services Act 2007.

It is, and has been throughout the current and previous financial period, the Fund's policy that no derivatives shall be undertaken for either investment risk management purposes or for trading.

17. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(e) Excessive risk concentration

Concentration indicates the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location. Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

In order to avoid excessive concentration of risk, the Fund's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio in accordance with the Fund's Trust Deed, Investment Manager's guidelines and the Securities Commission's Guidelines on Unit Trust Funds. Portfolio diversification across a number of sectors and industries minimises the risk not only of any single company's securities becoming worthless but also of all holdings suffering uniformly adverse business conditions. Specifically, the Fund's Trust Deed and Securities Commission's Guidelines on Unit Trust Funds limits the Fund's exposure to a single entity/industry sector to a certain percentage of its NAV.

(f) Market Risk

(i) Profit rate risk

Profit rate risk is uncertainties resulting from fluctuations in the prevailing level of market profit rates on its Islamic investments and financial position.

As at reporting date, the Fund has no floating rate financial instruments and thus does not have significant exposure to profit rate risk.

(ii) Equity price risk

Equity price risk is the risk of unfavourable changes in the fair values of equities as the result of changes in the levels of equity indices and the value of individual shares. The equity price risk exposure arises from the Fund's investments in quoted Shariah-compliant equity securities.

17. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(f) Market Risk (cont'd)

(ii) Equity price risk (cont'd)

Equity price risk sensitivity

Management's best estimate of the effect on the profit/(loss) for the period and other comprehensive income due to a reasonably possible change in equity indices, with all other variables held constant is indicated in the table below:

Market Index	%	Effect on NAV Increase RM
15.10.2022		
Changes in equity price	+10	457,513
15.04.2022		
Changes in equity price	+10	548,310

The Management assumed that the movement of FVTPL investments as at 15 October 2022 moves in line with the movement of the Bursa Malaysia KLCI index.

An equivalent decrease in each of the indices shown above would have resulted in an equivalent, but opposite impact.

In practice, the actual trading results may differ from the sensitivity analysis below and the difference could be material.

Equity price risk concentration

The following table sets out the Fund's exposure to equity price risk based on its portfolio of quoted equity instruments as at the reporting date.

	15.10.2022		15.04.2022	
	Fair value RM	% of NAV RM	Fair value	% of NAV
Malaysia	4,575,132	75.8	5,483,100	80.8

The details of Fund's concentration of equity price analysed by the Fund's equity instruments by sector is stated in Note 7.

17. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(g) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund is exposed to cash redemptions of its units on a regular basis. Units sold to unit holders by the Manager are redeemable at the unit holder's option based on the Fund's NAV per unit at the time of redemption calculated in accordance with the Fund's Trust Deed.

It is the Fund's policy that the Manager monitors the Fund's liquidity position on a daily basis. The Fund also manages its obligation to redeem units when required to do so and its overall liquidity risk by requiring a 3-day notice period before redemptions.

The Manager's policy is to always maintain a prudent and sufficient level of liquid assets so as to meet normal operating requirements and expected redemption requests by unit holders. Liquid assets comprise cash, Islamic deposits with financial institutions and other Islamic money market instruments which are capable of being converted into cash within 7 days.

The following table summarises the maturity profile of the Fund's financial assets, financial liabilities and NAV attributable to unit holders in order to provide a complete view of the Fund's contractual commitments and liquidity.

(i) Financial Assets

Analysis of financial assets at FVTPL into maturity groupings is based on the expected date on which these assets will be realised. Quoted Shariah-compliant equity instruments have been included in the "Less than 1 month" on the assumption that these are highly liquid investments which can be realised should all of the Fund's unit holders' capital are required to be redeemed.

For Islamic deposits with financial institutions and other assets, the analysis into maturity groupings is based on the behavioural cash flows, i.e. remaining period from the end of the reporting period to the contractual maturity date or if earlier, the expected date on which the assets will be realised/maturity dates of debt securities.

(ii) Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When a counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Fund can be required to pay.

17. FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(g) Liquidity risk (cont'd)

(iii) Equity

As unit holders can request for redemption on their units by giving the Manager a 3-day notice period, they have been categorised as having a maturity of “Less than 1 month”. However, the Fund believes that it would be able to liquidate other investments should the need arise to satisfy all the redemption requirements of the Fund.

(h) Credit risk

Credit concentration

Credit concentration risk is associated with the number of underlying Islamic investments or Islamic financial institutions which a Fund invests in or place deposits with. As the Fund is allowed to place Islamic deposits and/or invest in Islamic money market instruments wholly with a single financial institution, the NAV per unit of the Fund would be affected if the financial institution is not able to make timely payments of profit and/or principal.

Credit default

This refers to the creditworthiness of the respective Islamic financial institutions which Islamic deposits are placed with and their ability to make timely payment of principal and profit. If the Islamic financial institutions become insolvent, the Fund may suffer capital losses with regards to the capital invested and profit foregone, causing the performance of the Fund to be adversely affected.

(i) Reclassification of Shariah status risk

There is a risk that the currently held Shariah-compliant securities in the portfolio of Funds may be reclassified to be Shariah non-compliant upon review of the securities by the Shariah Advisory Council of the Securities Commission which is performed twice yearly. If this occurs, the value of the Fund may be affected whereby the Manager will then take the necessary steps to dispose of such securities in accordance with the Shariah Advisory Council's Resolutions and Guidelines.

18. CAPITAL MANAGEMENT

The capital of the Fund can vary depending on the demand for redemptions and subscriptions to the Fund. The Fund's approved fund size and units in issue at the end of the financial period is disclosed in Note 10(a).

The Fund's objectives for managing capital are:

- (a) To invest in Islamic investments meeting the description, risk exposure and expected return indicated in its prospectus;
- (b) To achieve consistent returns while safeguarding capital by using various Islamic investment strategies;
- (c) To maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise; and
- (d) To maintain sufficient fund size to make the operation of the Fund cost-efficient.

No changes were made to the capital management objectives, policies or processes during the current financial period.
