KEY RISKS

Specific Risks associated with this product:

| | |
|-------------|--|
| Market Risk | Market risk refers to potential losses that may arise from changes in the market prices of the Fund's investments. The prices of Shariah-compliant securities that the Fund invests in may fluctuate due to various factors, for example, events or news relating to the general market or economic conditions. Such movements in the prices of Shariah-compliant securities will cause the prices or NAV of the units to fluctuate. |
|-------------|--|

| | |
|---|---|
| Securities Specific Risk | Any fluctuation in the value of Shariah-compliant securities in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company may affect the price of units. The impact is however mitigated by the Fund investing in a wide portfolio of Shariah-compliant investments, thus spreading the element of risk. |
| Liquidity Risk | Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices. |
| Reclassification of Shariah Status Risk | This risk refers to the risk that the currently held Shariah-compliant equities in the portfolio of the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the SACSC or the Shariah Adviser. If this occurs, the value of the Fund may be adversely affected where the Manager will take the necessary steps to dispose of such equities in accordance with SACSC's resolutions and guidelines. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. |

Note: If your investments are made through a distributor (i.e. the institutional unit trusts advisers via a nominee system of ownership), you would not be deemed to be a unit holder under the deed and as a result, your rights as an investor may be limited if you are investing through a distributor. Accordingly, we will only recognize the distributor as a unit holder of the Fund and the said distributor shall be entitled to all the rights conferred to it under the deed.
