## KEY RISKS

Specific risks associated with this product:

Credit Risk	This refers to the possibility that an issuer may not be able to make timely profit or principal payments. A default in the payment of profit and principal will adversely affect the value of the Fund. However, this risk can be mitigated through investing in instruments that have a minimum rating of BBB by the Rating Agency of Malaysia or other local rating agencies while employing a portfolio diversification strategy. Any downgrading of a particular instrument below the minimum rating will be disposed of for its creditworthiness as soon as practicable.
Profit Rate Risk	The risk refers to the effect of profit rate changes on the market value of a sukuk portfolio or Islamic money market instruments. In the event of rising profit rates, the profit rate is affected and the sukuk prices and Islamic money market instruments' prices will generally fall and vice versa, thus affecting the NAV of the Fund. However, should the Fund hold a sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the NAV shall not be affected at maturity. In order to mitigate profit rates exposure of the Fund, the Manager will actively manage the duration of the sukuk portfolio.
Reinvestment Risk	This is a risk that future proceeds (profit and/or capital) are reinvested at a lower potential profit rate. Reinvestment risk is especially evident during periods of falling profit rates where the coupon/profit payments are reinvested at less than the yield to maturity (actual profit rate) at the time of purchase.
Regulatory Risk	Any changes in national policies and regulations may have an effect on the capital markets in which the Fund is investing. If this occurs there is a possibility that the value of Unit Holders' investments may be adversely affected.

*Note: If your investments are made through a distributor (i.e. the institutional unit trusts advisers via a nominee system of ownership), you would not be deemed to be a Unit Holder under the deed and as a result, your rights as an investor may be limited if you are investing through a distributor. Accordingly, we will only recognize the distributor as a unit holder of the Fund and the said distributor shall be entitled to all the rights conferred to it under the deed.*

## FEES AND CHARGES

Sales Charge	Nil
Repurchase Charge	Nil
Switching Charge	Two (2) free switching for each Unit Holder in a calendar year. Subsequent switching will be charged RM25 per switch.  Units of MASMMF switched to any other funds within the first year from the date of purchase of those Units will be subject to sales charge of the funds they intend to switch to.
Transfer Fee	RM50 per transfer.

Investors shall be paid within seven (7) Business Days from the date the request to repurchase is received by the Manager.</p> <p>For partial repurchase, the Unit holdings after the redemption must not be less than one thousand (1000) Units or such other lower number of Units as may be determined by the Manager from time to time. If the Unit holdings of a Unit Holder are, after a redemption request, below the minimum Unit holdings of the Fund, a request for full redemption is deemed to have been made.</p> <p>Other than the above conditions, there are no restrictions in terms of frequency and minimum Units to be repurchased.</p>

## FUND PERFORMANCE

For the financial year ended 15 October 2022, the NAV was maintained at RM1.0000 per Unit. The difference of 0.05% in the NAV per Unit is the distribution payable for the period from 1 October 2022 to 15 October 2022, which will be declared in the next financial period of the Fund. The number of Units in circulation increased to 114.5 million Units as at 15 October 2022 from 114.3 million Units registered as at 15 October 2021. The Fund met its objective in providing capital stability with regular income returns through investments in short-term Islamic placements during the period under review. The Fund has declared and distributed a total income of 1.90 sen which translated to a net dividend yield of 1.90% p.a. The Maybank Islamic Overnight Rate has been identified as the benchmark given that it is easily accessible and provides a good indicator on the performance of the Islamic Money Market ("IMM").
