If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.</p>

(4) RISK FACTORS

Prior to making an investment, prospective investors should consider the following risk factors in addition to the other information set out in this Information Memorandum.

General Risks

Market Risk

Market risk refers to potential losses that may arise from changes in the market prices of the Fund's investments. The prices of securities that the Fund invests in may fluctuate due to various factors, for example, events or news relating to the general market or economic conditions. Such movements in the prices of securities will cause the prices or NAV of the Units to fluctuate.

Manager's Risk

This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us.

Inflation Risk

This risk refers to the likelihood of a unit holder's investments not growing proportionately to the inflation rate resulting in the unit holder's decreasing purchasing power even though the investment in monetary terms may have increased. This risk can be mitigated by investing in securities that can provide positive real rate of return.

Suspension of Repurchase Risk

The Fund may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the repurchase of Units under exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be reasonably determined. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be compelled to remain invested in the Fund for a longer period of time than the stipulated repurchase timeline. Hence, Unit Holders' investments will continue to be subjected to the risk factors inherent to the Fund. Please refer to section 7(i) of this Information Memorandum for more information on suspension of dealing in Units.

Specific Risks

Stock Specific Risk

Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.

Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the net asset value of the Fund or prices of units to fall.

Currency Risk

As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. Unit Holders should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the

base currency of the Fund and vice versa. Unit Holders should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Liquidity Risk

This risk refers to the ease with which the Fund's investment can be sold at a favourable price. Should the Fund's investment become illiquid, it may be sold at an unfavourable price which may then lower the value of the Fund's investments and subsequently the value of Unit Holders' investments.

Reclassification of Shariah Status Risk

This risk refers to the risk that the currently held Shariah-compliant investments invested by the Fund may be reclassified to be Shariah non-compliant by the relevant authority or the Shariah Adviser. In the event the Shariah-compliant investments held by the Fund are reclassified as Shariah non-compliant by the relevant authority or the Shariah Adviser, the instruments will be disposed in accordance with rules and decision by the Shariah Adviser. Please refer to Section 3 of this Information Memorandum for the Fund's Shariah Investment Guidelines on the treatment of gains and losses as a result of the Shariah non-compliant investment.

Non-Compliance Risk

This is the risk of the Manager not complying with internal policies, the Deed, securities law, and guidelines, whether by oversight or by omission, or if the Manager acts fraudulently or dishonestly. Non-compliance risk may adversely affect the investment of the Unit Holders if the Manager is forced to sell the investments of the Fund at a discount to restore the non-compliance. In order to mitigate this risk, we have imposed stringent internal compliance controls.

Collective Investment Scheme Risk

Investing in collective investment schemes may be more costly to the Fund than if the Fund had invested in the underlying investments directly as the Fund will indirectly be paying the fees and expenses of the collective investment schemes. Additionally, the Fund's investments in real estate investment trusts ("REITs") will involve many of the same risks associated with direct ownership of real estate, including but not limited to possible declines in real estate's value, increase in interest rates and real estate borrowing costs, changes in property taxes, higher operating expenses, and damages from natural or man-made disasters and fall in market rental rates. The Fund's investments in exchange-traded funds ("ETFs") may subject the Fund to additional risks (such as risks related to the changes in the constituent securities of the index that the ETF is tracking which may result in the rise or fall of the price of the ETF or cessation of the index that the ETF is tracking which may result in the termination of the ETF) than if the Fund would have invested directly in the constituent securities of the index. Any adverse price movements of such REITs and ETFs will adversely affect the Fund's NAV.

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, Shariah adviser, stockbrokers or independent professional advisers for a better understanding of the risks.

Risk Management Strategies

The Manager will utilise asset allocation to mitigate the overall investment risk to the Fund. Asset allocation allows for strategic switching of assets to protect the overall value of the Fund when necessary. Sector selection on the other hand provides the opportunity to diversify investment risk within an asset class.

(5) FEES, CHARGES AND EXPENSES

Charges

The following describes the charges that investors may **directly** incur when buying or redeeming Units:

(a) Sales Charge

A sales charge may be imposed on the purchase of Units of the Fund and may be utilised by us to pay the marketing, advertising and distribution expenses of the Fund.

The sales charge shall be a percentage of the Offer Price and is disclosed as follows to enable investors to understand, compare and to make an informed decision on the preferred distribution channel:

**The Manager reserves the right to waive or reduce the sales charge from time to time at its absolute discretion. Investors may also negotiate for a lower sales charge with their preferred distributor, subject to the respective channel's qualifying criterion. All sales charge will be rounded up to two (2) decimal places and will be retained by the Manager.*

Differing sales charge may be levied depending on the distribution channels and the distributor within each distribution channel, subject to the sales charge stipulated above. This is due to the different levels of services provided by each distribution channel and/or the size of the investment undertaken.

(b) Exit Fee

Fees and Expenses

The fees and expenses **indirectly** incurred by you when investing in the Fund are as follows

(b) Incentive Fee

(d) Fund Expenses

In administering the Fund, only fees and expenses that are directly related and necessary to the operation and administration of the Fund may be charged to the Fund. These include (but not limited to) the following:

- (i) commissions or fees paid to brokers or dealers in effecting dealings in the Shariah-compliant investments of the Fund, shown on the contract notes or confirmation notes;

(e) Policy on Stockbroking Rebates and Soft Commissions

The Manager or any delegate thereof will not retain any form of rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund.

However, soft commissions may be retained by the Manager and its delegates provided always that:

- (i) the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (ii) any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- (iii) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager or fund manager shall not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund. The fees, charges and expenses quoted in this Information Memorandum are exclusive of any taxes and/or duties imposed by law or required to be paid in connection with the products or services provided by the Manager and/or the Trustee.

(6) TRANSACTION INFORMATION

(a) Valuation Point

Valuation point refers to such time on a Valuation Day wherein the NAV of the Fund is calculated.

The Fund is valued once every month on the Valuation Day and the price of the Units will be published on a monthly basis on the Manager's website.

(b) Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund's liabilities from the value of the Fund's assets, at a valuation point. For the purpose of computing the annual management fee and annual trustee fee, the NAV of the Fund should be inclusive of the annual management fee and the annual trustee fee for the relevant Valuation Day.

Please note that the example below is for illustration only:

		RM
	Investment	100,000,000.00
Add:	Other assets (including cash) & income	1,400,000.00
Less:	Liabilities	200,000.00
	NAV before deducting annual management fee and annual trustee fee for the relevant Valuation Day	<u>101,200,000.00</u>
Less:	Annual management fee for the relevant Valuation Day (at 1.80% per annum calculated based on NAV) $101,200,000 \times 1.80\% / 365$ days	4,990.68
Less:	Annual trustee fee for the relevant Valuation Day (at 0.06% per annum calculated based on the NAV) $101,200,000 \times 0.06\% / 365$ days	166.36
	NAV	<u><u>101,194,843</u></u>

The NAV per Unit of the Fund is calculated by dividing the total NAV of the Fund by the number of Units in circulation at the same valuation point of the relevant Valuation Day.

In the event that there are 200,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of the Fund shall therefore be calculated as follows:

		RM
	NAV	101,194,843
Divide	Units in circulation	200,000,000
	NAV per Unit	<u><u>0.5060*</u></u>

**NAV per Unit will be rounded up to four (4) decimal places for the purposes of publication of the NAV per Unit.*

(c) Pricing of Units

Selling Price of Units

Units will only be sold at the Offer Price during the Offer Period. The Manager and its distributors will impose a maximum sales charge of 5.00% of the Offer Price on top of the amount an investor pays to the Manager to purchase Units.

Calculation of Selling Price

Illustration – Sale of Units with sales charge

Example:

If an investor wishes to invest RM100,000.00 in the Fund during the Offer Period, and if the sales charge is 5.00% of the Offer Price, the total amount to be paid by the investor and the number of Units issued to an investor will be as follows:

Sales charge payable by an investor = 5.00% x RM100,000.00 = **RM5,000.00**

The total amount to be paid by an investor for his or her investment will therefore be:
RM100,000.00 + RM5,000.00
= **RM105,000.00** (inclusive of sales charge)

The number of Units that will be issued to the investor will be:
RM100,000.00 divided by RM1.00 (Offer Price)
= **100,000.00** Units

INVESTORS ARE ADVISED NOT TO MAKE PAYMENT IN CASH TO ANY INDIVIDUAL AGENT WHEN PURCHASING UNITS OF THE FUND.

Repurchase Price of Units

The Repurchase Price of a Unit is the NAV per Unit of the Fund on a Valuation Day after the request to repurchase Units is received by the Manager.

Calculation of Repurchase Price

Illustration – Repurchase of Units with exit fee

Example:

If an investor wishes to redeem 100,000.00 Units on a Business Day before the Maturity Date or Early Liquidation Date, the total amount to be paid to the investor and the number of Units redeemed by investor will be as follows:

In the event that the NAV per Unit of the Fund at the end of that Valuation Day = RM1.1500

Exit fee payable by an investor = 5.00% x RM115,000.00 = **RM5,750.00**

The number of Units that will be redeemed by an investor will be:
RM115,000.00 divided by RM1.1500 (the NAV per Unit)
= **100,000.00** Units

The total amount to be paid to an investor will be:
RM115,000.00 – RM5,750.00
= **RM109,250.00**

Illustration – Repurchase of Units with incentive fee

Example:

If an investor wishes to redeem 100,000.00 Units on a Business Day before the Maturity Date or Early Liquidation Date, the total amount to be paid to the investor and the number of Units redeemed by investor will be as follows:

In the event that the NAV per Unit of the Fund at the end of that Valuation Day = RM1.2500

Incentive fee payable by an investor = 10.00% x RM25,000.00 = **RM2,500.00**

The number of Units that will be redeemed by an investor will be:
RM125,000.00 divided by RM1.2500 (the NAV per Unit)
= **100,000.00 Units**

The total amount to be paid to an investor will be:
RM125,000.00 – RM2,500.00
= **RM122,500.00**

(d) Incorrect Pricing

The Manager shall take immediate remedial action to rectify any incorrect valuation and/or pricing of the Fund or Units of the Fund. Where such error has occurred, monies shall be reimbursed in the following manner: -

- (a) in the event of over valuation or pricing, by the Manager to the Fund (if there is a repurchase of Units) and/or to the Unit Holders who purchase Units at a higher price; or
- (b) in the event of under valuation or pricing, by the Manager to the Fund (if there is a sale of Units) and/or to the Unit Holders or former Unit Holders who redeem at a lower price.

Notwithstanding the foregoing, unless the Trustee otherwise directs, no reimbursement shall be made save and except where an incorrect pricing: -

- (i) is equal to or more than zero point five per centum (0.5%) of the NAV per Unit; and
- (ii) results in a sum total of Ringgit Malaysia Ten (RM10.00) or more to be reimbursed to a Unit Holder for each repurchase transaction.

Subject to any regulatory requirements, the Manager shall have the right to amend, vary or revise the abovesaid limits or threshold from time to time and disclose such amendment, variation or revision in this Information Memorandum.

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.

No application will be accepted by the Manager after the cut-off time on the last day of the Offer Period.

Repurchase requests/applications can be made on a monthly basis on or before the twenty-fifth (25th) calendar day of each month subject to payment of incentive fee (if applicable) and exit fee.

For any repurchase request/application received by the Manager on or before the cut-off time of 4:00 pm on the twenty-fifth (25th) calendar day of the month, Units would be repurchased based on the NAV per Unit on the Valuation Day after the request for repurchase of Units is received and accepted by the Manager. If the twenty-fifth (25th) calendar day of the month is not a Business Day, then 4:00 pm the next Business Day will be the cut-off time for that month.

Any repurchase application received after this cut-off time would be considered as being transacted on the following month and the Units would be repurchased on the following month's Valuation Day.

For pricing of Units, please refer to pages 19 – 21.

(h) Distribution of Income

The Fund does not intend to distribute income.

(i) Liquidity Risk Management Policy

In managing the liquidity of the Fund to meet repurchase requests from the Unit Holders as well as to safeguard the interests of the remaining Unit Holders, the Manager has put in place the following procedures:

- (a) liquidity risk dashboard, a periodic review of portfolio to ascertain the duration of time needed to liquidate investments of the Fund;
- (b) liquidity stress test;
- (c) investor concentration threshold, whereby non-individual Unit Holders who wishes to make large redemptions (more than 10% of the Fund's assets under management) are required to give 10 calendar days prior written notice to the Manager.

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, resort to suspend the dealing in Units due to exceptional circumstances, where there is good and sufficient reason to do so (e.g. where the market value or fair value of a material portion of the Fund's assets cannot be determined), provided always that the abovementioned procedures have been exhausted.

UNIT PRICES MAY GO DOWN AS WELL AS UP.
